

Panaya Test Center, The Next Generation Testing Solution

Even with the continual rise in IT budget for testing spending, critical business failures are still occurring at the business process level. Continuous investment in optimizing code level testing automation is redundant, and to ensure "business as usual", organizations need to shift testing activities from traditional code testing to business process level testing.

End-to-End Test Management Designed for ERP

Designed from the ground up for business processes testing of SAP and Oracle systems, Panaya Test Center provides a comprehensive, yet simple way for functional experts and business users to perform all of their manual testing activities faster.

Panaya Test Center Benefits:

- ✓ 100% SaaS, no hardware, no software installation
- ✓ Intuitive dashboard brings increased control and visibility
- ✓ Automatic test run evidence reduces testers effort and brings visibility to previous steps
- ✓ Smart defect management increases productivity and reduces bottlenecks
- ✓ Automatic handover between testers reduces idle time
- ✓ Automatic defect reporting allows developers to immediately start working on the solution
- ✓ Effortless documentation offers reusable, detailed test scripts
- ✓ Automatic migration of your existing test scenarios means easy on-boarding

The screenshot displays the Panaya CloudQuality Suite interface for a project named 'Rollout to Europe'. It features a navigation bar with 'PROJECT', 'TESTS', 'DEFECTS', and 'REPORTS' tabs, along with a search bar and user account information.

Two dashboards are visible:

- France Execution:** Shows 247 tests in scope, 25 out of scope, and a 2.2h time to complete. It displays two circular progress indicators: TESTS (96% Passed, 5 Failed, 3 In Progress, 0 Not Run) and STEPS (97% Passed, 5 Failed, 38 In Progress, 0 Not Run).
- Germany Execution:** Shows 366 tests in scope, 2 failed, 4 in progress, and 0 not run. It displays two circular progress indicators: TESTS (98% Passed, 2 Failed, 4 In Progress, 0 Not Run) and STEPS (98% Passed, 2 Failed, 41 In Progress, 0 Not Run).

A detailed view of a test case '1414 | PRC50 - 01 - Return to Vendor' is shown, including a table of test steps:

#	Description	Transaction	Expected Results	Tester	Team	Status	Actual Results
1	Create Purchase Order	ME21N	PurchOrder #	John Smith	Procurement - Direct	Passed	CCE 4501703235 OK
2	Goods Movement Incoming Goods	MIGO_GR		Jack Paul	Manufacturing - Warehouse	Passed	Goods receipt OK
3	Create LIV Document	MERO	LIV Document #	Serge Lazimi	Finance - A/P	Passed	3200000019
4	Review Accounting Document posted (A/P)	FB03		Tal Zash	Finance - A/P	Passed	OK
5	Return Goods to Vendor	MIGO_GI		Chen Shalev	Procurement - Returns	Passed	return delivery of 124 CH130001 doc 823588
6	Review Accounting Document posted (A/R)	FB03		Ilan Meirman	Finance - A/R	Passed	CR 3200000025

At the bottom, a table lists test scenarios with columns for Test Name, Failed step, Passed steps, Current Tester, Current Team, Status, Last Run, and Path. The status column uses color-coded buttons: Not Run (grey), In Progress (blue), and Failed (red).

PTC Delivers 30% Reduction in Testing Effort

Panaya's solution is cloud-based - no software or hardware installation is required. Technical implementation doesn't exist and best of all, you will be up and running in 48 hours.

Panaya Test Center delivers:

Test Management

Panaya Test Center includes smart test management capabilities, which are tailor-made to empower project managers and testing managers to gain ongoing real-time **visibility** and **control** over all testing activities, and to easily **assign** multiple functional experts or key users to different steps of a single business process.

Effortless Migration

With Panaya Test Center you don't need to recreate or migrate your existing scripts and business processes. Whether they are in Word, Excel or PDF, just upload them to Panaya Test-Box and Panaya handles the migration from top to bottom.

Test Evidence

By automatically documenting every test execution with no additional effort required by the tester, Panaya Test Center delivers granular test evidence. Automatically documented test evidence reduces the continual back and forth between developers and testers, providing granular visibility of the steps to reproduce the test. Additionally, documentation is always audit ready, ensuring you comply with your company quality standards.

Smart Defect Management

Panaya Smart Defect Management provides, in addition to all industry best practices, a full suite of powerful features to increase your productivity like automatic alerts for defects raised on central and critical transactions, automatic documentation of defects when created during testing, automatic notifications to testers when the defect is solved as well as enforcement to testers to close defects when related tests are passed.

Dashboards and Reporting

With best of breed dashboards and real-time reporting to monitor the progress, per cycle, of your end-to-end business processes the challenge of multiple users involved in each business process, becomes obsolete. The out of the box reports to track tests and defects follow industry best practices and provide visibility and track in real-time the progress of your project at any point in time.

User Acceptance Testing

Panaya Test Center is intuitive and easy to use with simple onboarding, enabling quick adoption by your business users. By removing all the overhead involved in testing for a casual tester, you will enable your key users to focus on their testing activities and gain in productivity. Additionally, Panaya Test Center accelerates your UAT cycles with bottleneck prevention via Panaya System-wide defect management.

About Panaya | With Panaya, organizations reach ERP agility faster - with zero time to change, zero risk, and zero defects. Panaya CloudQuality™ Suite enables all types of SAP® and Oracle® EBS changes. Panaya CloudQuality™ Suite delivers insights that tell you what will break, how to fix it, and what to test, helping organizations manage the testing process and collaborate between IT and business during the entire release process. Since 2008, 1,600 companies in 62 countries, including a third of the Fortune 500, have been using Panaya CloudQuality™ Suite to achieve ERP agility. www.panaya.com
