Panaya

Your change cycle with
Panaya ERP Impact Analysis

Model your code & usage behavior
Maps your customizations & usage, adds visibility to your system

Save Time
Tells you what will be impacted, identifying potential problems and suggests automatic fix

Quick Onboarding
100% SaaS - for one hour of your time, receive a complete project plan in 48 hours

Reduces Risk
Tells you what you need to test, reduces the risk of potential production failures

Reduces Test Effort
Accelerates test cycles by automating the test evidence and test scenario creation

Increase collaboration
Automatically passes the baton between business testers - increases collaboration and reduces idle time

Transparency
Live Reporting & Smart Dashboard – identifying testing bottlenecks and defects trend

Panaya generates an optimized scope plan for any ERP change in SAP ERP or Oracle EBS. In addition, testing accelerators speed up tests and assist in defect reporting.

Real time dashboards add visibility and transparency and all assets gained are leveraged for your next project.

For all changes:

HANA migration | SAP EHP/SPS | Upgrade | Oracle cloud migration | Patches | Code Quality | Rollouts

Get started in 3 easy steps:
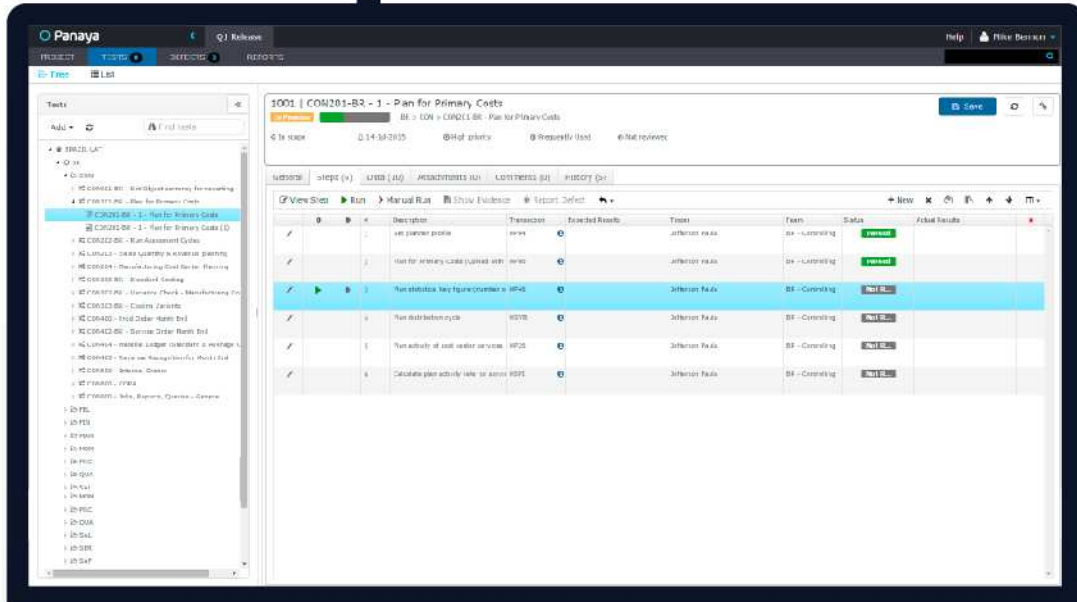

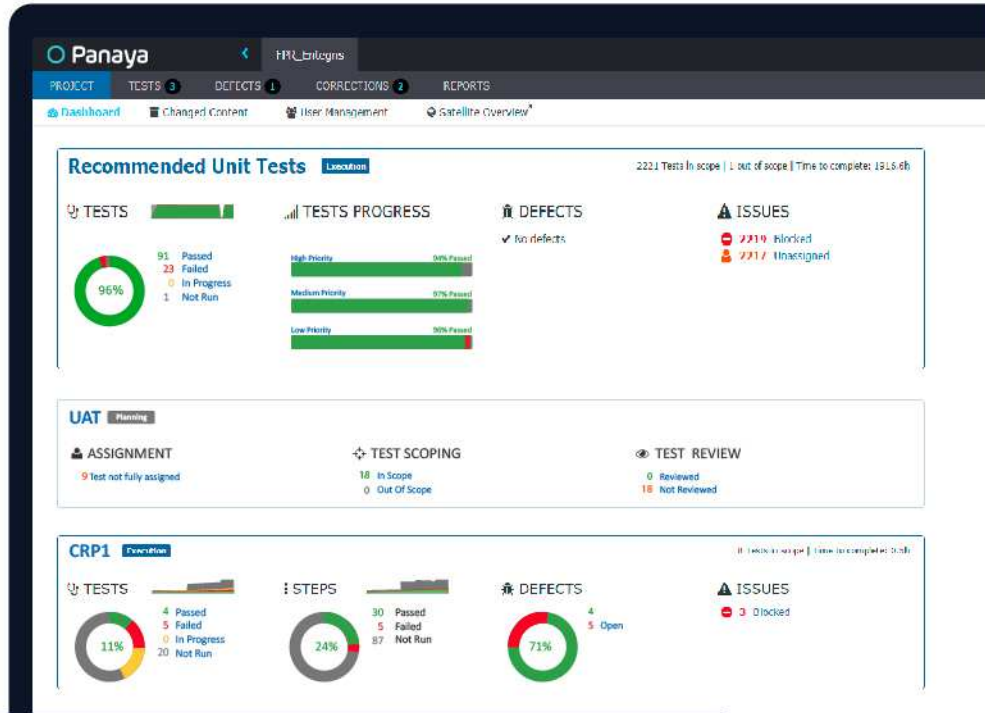

1 Decide on the change your business needs

2 Run Panaya extractor and upload your code to the code box

3 Upload your existing test scripts to the test box

Panaya's solution is cloud-based - no software or hardware installation is required.
Technical implementation doesn't exist and best of all, you will be up and running in 48 hours.

> **Using Panaya**, Agropur **saved** 45% on outsourcing costs, 50% on unit testing, 30% on project duration, and went live **on time**, **and under-budget**

Marie-Claude Alary
Manager of Business Process Systems Improvement,
Agropur

> With Panaya, we have a **laser focus** on the areas we want to **test**

Robert Osterhaus
Director of Delivery, Forest Labs

> We are already experiencing **remarkable productivity** gains and greater efficiencies across roles

Beth Carlson
Project Manager, Entegris
