

PANAYA RELEASE DYNAMIX

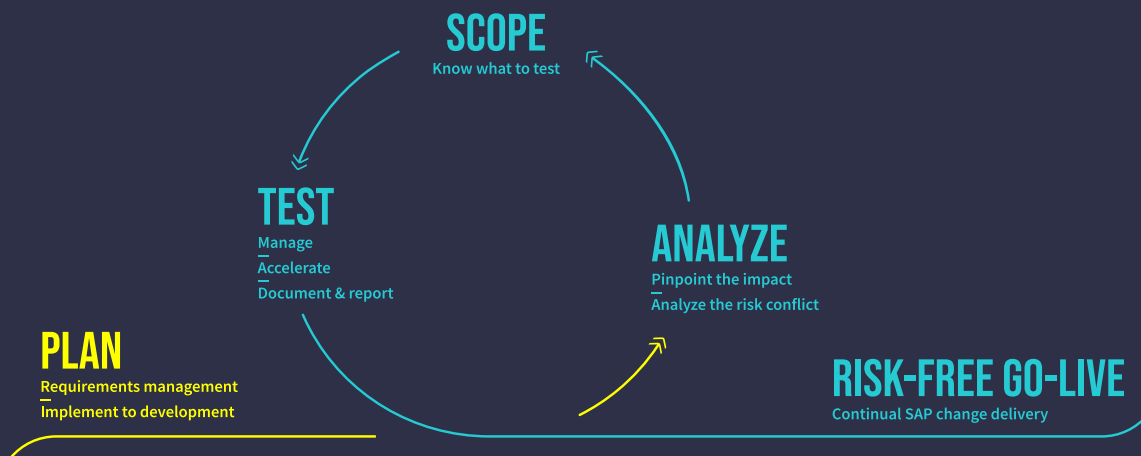

Deliver Innovation and Business
Value Faster and without the Risk

From maintenance to new functionality to customization, change is relentless. Designed to deliver benefits, change projects also introduce cost and complexity, take time to implement, and pose a risk to the enterprise.

But it's possible to seize control over enterprise application change while saving time and reducing risk.

Reduce Time, Cost and Risk of SAP Changes by 50%

Panaya Release Dynamix is the enterprise approach to be more agile in addressing constant ERP application changes. Offering a uniquely simple solution for SAP customers, Release Dynamix combines change impact, transport analytics and collaborative testing tools for IT and business to reduce time, effort and risk.

With real-time insights into change risk, you can quickly and safely release business application changes into production.

See Everything

Gain visibility into your change implementation with real-time monitoring and reporting.

Sync Everyone

Bring together business, testing, development and delivery teams on a collaborative platform.

Business Acceleration

Manage changing priorities and keep SAP relevant in shorter release cycles.

Ease of Use

Our SaaS solution is intuitive for quick onboarding for both business and tech users.

Be Proactive

Know what will break at the start with real-time impact analysis.

COLLABORATION & VISIBILITY

GAIN VISIBILITY AND REDUCE RISK

Detailed Risk Cockpit

Visualize the risk of upcoming releases and pending transport deployments, based on Dev, Test, and Governance risk factors.

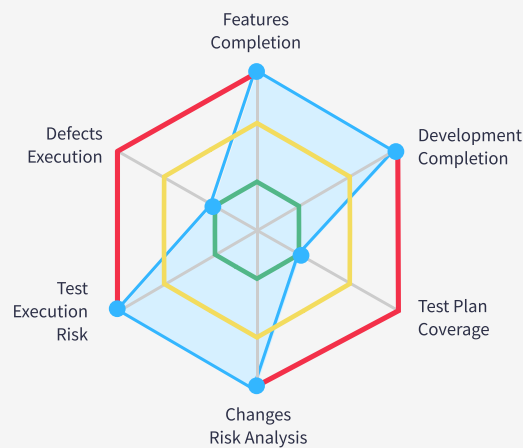

RISK MITIGATION

- 0 Features with High Priority and high Impact Risk
- 528 Conflicts between Features in this project
- 0 Features with higher actual testing efforts than estimated
- 2 Tests not mapped to features
- 0 Features with actual implementation efforts higher than estimated
- 0 Features with High Priority and open Defects

PROJECT RISK

HIGH

- Features Completion**
Out of 2 total features, 2 are **uncompleted**
- Development Completion**
Out of 2 total features, 2 are **still in development**
- Test Plan Coverage**
Out of 2 total features, 0 have no Test plan
- Changes Risk Analysis**
2 **Features** with High Risk impact
- Test Execution Risk**
Out of 2 total features, 2 **have no completed tests**
- Defects Execution**
There are 0 High priority and 0 Critical priority open defects

ANALYZE

MITIGATE RISK WITH REAL-TIME IMPACT ANALYSIS OF SAP TRANSPORTS

Change Impact Analysis

Immediately gain visibility into impacted objects, their respective usage in production, and related test coverage.

IMPACT
RISK
HIGH

Scoped in Test Coverage

28% Entry points are covered by tests

• 377 Not Covered • 151 Covered

Scoped Out Risk

66% Scoped out entry points are in risk

• 33 Frequently Used • 0 Rarely Used • 0 Unknown
• 17 Normally Used • 0 Unused

Business Process Risk Analysis

Map any impacted entry point within your business process library to understand the downstream impact on any business process while optimizing your regression cycle.

TEST ID	TEST NAME	STATUS	CYCLE	USAGE	PRIORITY	IN SCOPE
16358	Procurement Contract	Failed	ECC UAT	Frequently	High	YES
16340	Sales of Nonstock Item with Ord...	In Progress	ECC UAT	Frequently	High	YES
16354	Stock Handeling Scrap and...	In Progress	ECC UAT	Frequently	High	YES
16372	Procurement and Consumption Of Consigned Inventory	In Progress	ECC UAT	Frequently	High	YES
16349	Return to Vendor	Passed	ECC UAT	Frequently	High	YES

SCOPE

WHAT TO TEST

Test Coverage

Risk-based test plans that specify the optimal coverage to validate risk. Instantly identify any gaps in your test coverage.

Change Coverage

Covering Tests

Automatically Generate Test Plans

Generate new test assets with a button click, ensuring complete test coverage and improving your test library.

	ENTRY POINT	DESCRIPTION	COVERED	TYPE	USAGE
<input checked="" type="checkbox"/>	MESK	Requisitions by Account	No	Report	Normally Used
<input checked="" type="checkbox"/>	HUMO	HU Monitor	No	Transaction	Frequently Used
<input type="checkbox"/>	OV51	Display of Changes for Customer	Yes	Report	Normally Used
<input checked="" type="checkbox"/>	ME80	Purchasing Reporting	No	Transaction	Rarely Used
<input type="checkbox"/>	S_P99_41000101	Check Register	Yes	Report	Frequently Used
<input type="checkbox"/>	CRC1	Create Resource	Yes	Transaction	Normally Used

Automatically generate tests to cover the selected Entry Points

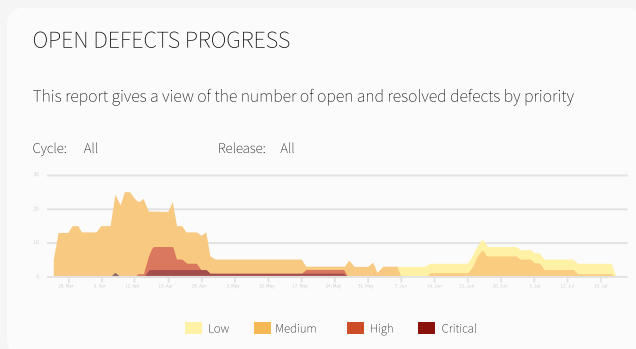

Generate Test

TEST

MANAGE AND ACCELERATE TEST EXECUTION

Smart Defect Management

Link defects to related tests, reducing duplication of efforts and increasing testing efficiencies

Real-time, Actionable Insights
Full visibility across the defects lifecycle with custom dashboards and reports

STEP 2 - CREATE SALES ORDER (VA01)

Run Step

SYSTEM-WIDE DEFECT ALERT

A defect is currently opened on transaction VA01 (master data problem): [Defect 2652](#)

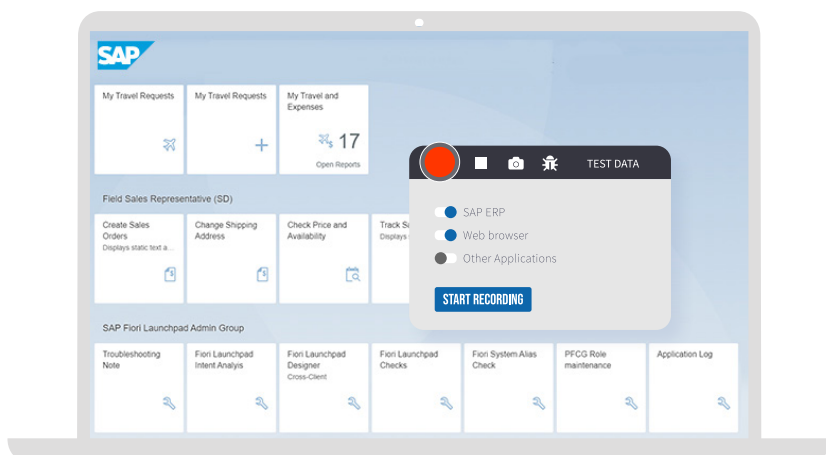

Do not run this step until you receive an automatic notification of resolution.

OK

System-Wide Defects
Unique feature anticipates how a defect could affect future tests, preventing defects inflation and duplication”

Record & Play

Enables the effortless generation of test evidence, which can be reused for codeless automation and automatic documentation.

Audit-ready and automated documentation for quality standards, with considerable time savings. End-to-end automated testing based on recording scripts.

INTEGRATE WITH THE TOOLS YOU LOVE

OVER 150 INTEGRATIONS TO BEST IN CLASS SOLUTIONS

Panaya Release Dynamix is a SaaS solution which integrates with the tools you are already using for software development and delivery so you have better visibility, collaboration and reporting.
