## Panaya

ACCELERATE AND DE-RISK
SAP INNOVATION

The Fastest and Safest Way to an Error-Free SAP Go-Live!

Whether you are running ECC6 or S/4HANA, your landscape is continuously evolving. Upgrades and process innovations are a given.

But these initiatives introduce significant technical and functional risk into your operations. Panaya's SaaS-based Change Intelligence Platform enables you to proactively see and address this risk, so you can innovate with confidence.

The Most Comprehensive Impact Analysis Coverage
Leveraging SAP tools, best practices, and Panaya's proprietary Change Intelligence AI.

Intelligent Code Remediations
Safely deploy thousands of automatic code corrections in seconds.

Real-Time Transport Analytics
Identify impacted entry points, precise testing scope, and even test gaps – relating to code and configuration changes.

A Powerful Testing Platform Designed for SAP
Business process-centric Test and Defect Management Platform, fully integrated with test automation.

HILLARYS

SAP & Panaya Join Forces to Drive SAP S/4HANA Adoption.

PANAYA
YOUR
AUTOPILOT
FOR CHANGE

Panaya is with you every step of the way, whether you are staying on ECC6 for the long term, planning a single or multi-phase S/4HANA conversion, or are upgrading your live S/4HANA instance.

IN JUST 48 HOURS

Panaya provides an auto-generated project plan based on your custom code and usage, with ready-to-deploy auto-code corrections, optimized project scope, and a complete unit test plan.

PANAYA CHANGE INTELLIGENCE BENEFITS

Gain Visibility and control over every aspect of your project
Control your progress with real-time insights into each step of your initiative.

Get it right the first time, avoiding costly go-live errors
Proactively validate that your code and business processes will work as-is.

Eliminate change risk
Foresee exactly what will break, what to fix, and what to test, with comprehensive, patented, AI analyses.

Cut project timeines and budget by 50%+
Reduce code remediation and testing scope based on priority and usage.

○ Panaya

FEATURES

A Complete Project Plan

Know all your project activities before you even start, including code corrections and testing efforts, all delivered in under 48 hours. And save hundreds of project hours by leveraging Panaya's task optimization capabilities.

Use Panaya for:

› ECC6 EHP\SPS Upgrades
› ECC6 HR\SCM Upgrades
› Business Suite on HANA
› Back to Standard Analyses
› S/4HANA Project Assessments

› S/4HANA Conversions
› S/4HANA Version\FPS\SPSUpgrades
› Transport Risk Analyses for code & configuration changes

MODULE	FREQUENTLY	NORMALLY USED	RARELY USED	TOTAL DELETED	% DELETED TRANSACTIONS IN MODULE
MM	16	6	3	25	7% (25 out of 358)
PP	1	1	2	4	1.2% (4 out of 346)
BC	1			1	0.1% (1 out of 693)
AC		1	1	2	50% (2 out of 4)
R	27	28	8	63	10.6% (63 out of 593)
LO	3	9	6	18	7.9% (18 out of 228)
PS	19	44	17	80	78.4% (80 out of 102)

O Panaya

Intelligent Code Remediation

Reduce project costs and timelines with auto-corrected code, relating to HANA syntax, obsolete functions, cloned programs, S/4HANA data model changes, and more. Corrections are ready to be deployed instanly, directly into your Dev system. Selectively decide which corrections to fix (automatically or manually) while monitoring progress and efficiencies.
