## End-to-end, Smart Test Management Solution for Salesforce

An advance testing solution, built into the Panaya ForeSight platform, designed to help you optimize your Salesforce testing time and resources, while increasing accuracy and efficiency

### DESIGNED FOR SALESFORCE

View and manage your tests in a single management platform, built for business processes and optimized for Classic and Lightning interfaces.

### COMPLETE TESTING TOOLSET

Seamlessly compile and create test assets, assign testers, and generate data set specifications for reusable test cycles. Receive comprehensive reports to track effectiveness and testing status.

### RISK-BASED TESTING

Reduces testing time and resources, while increasing testing accuracy and efficiency, by only testing what NEEDS to be tested.

### BUSINESS CENTRIC

Create a solid testing strategy based on the business impact. Detect threats on time and resolve them before they cause significant problems to your business-critical processes.

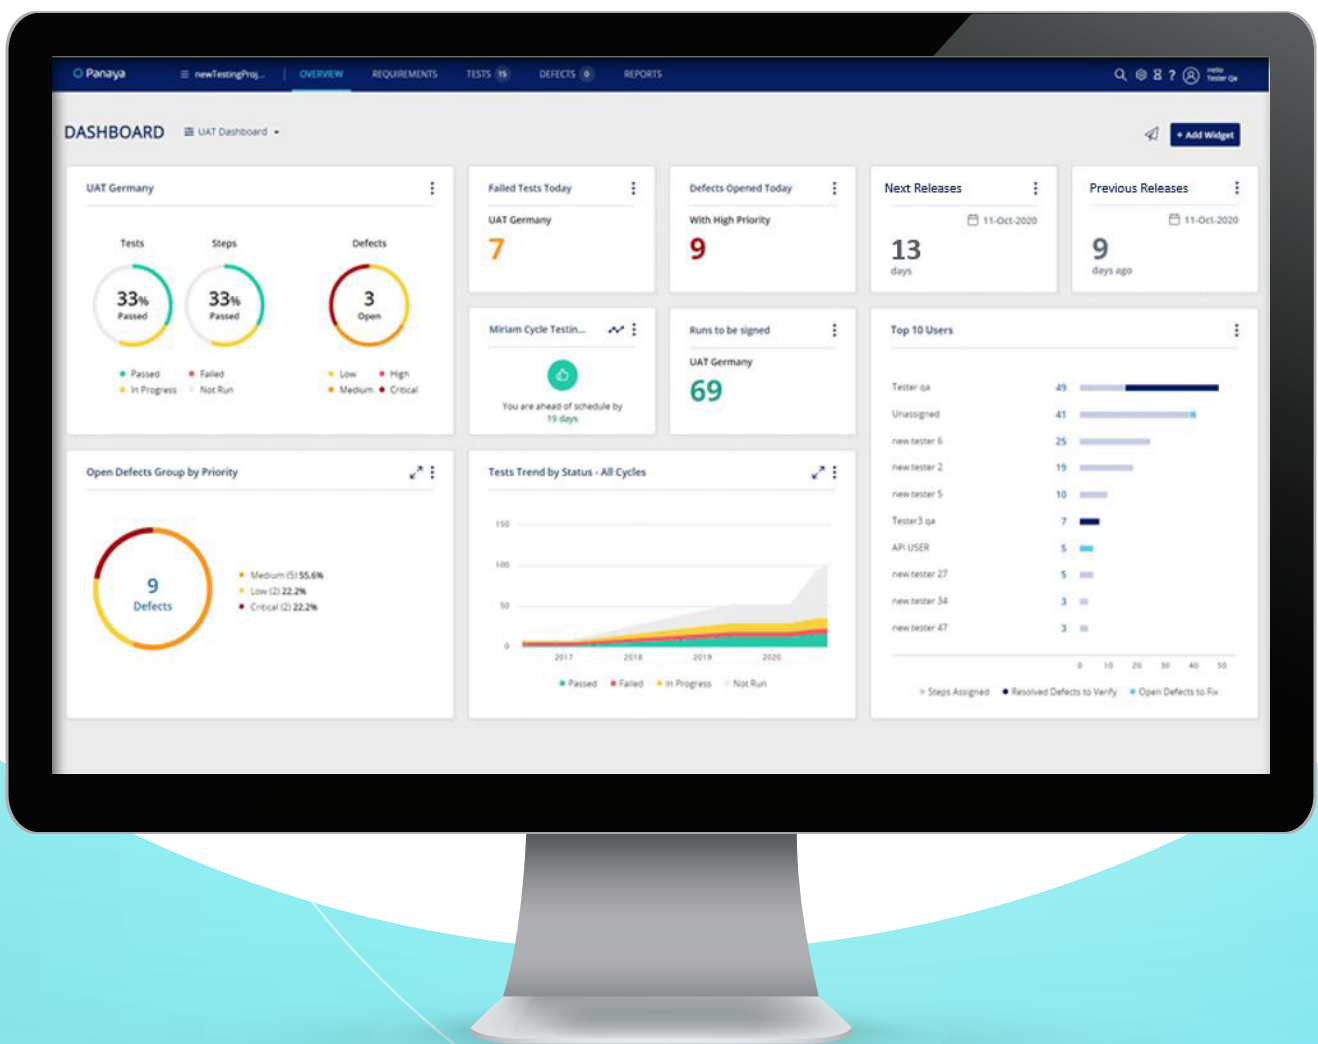

### AUTOMATIC DOCUMENTATION

Automatically generate human readable documentation of your business processes. Accelerate your testing efforts with Panaya Test Recorder and Player.

# PLATFORM HIGHLIGHTS

## FULL CONTROL

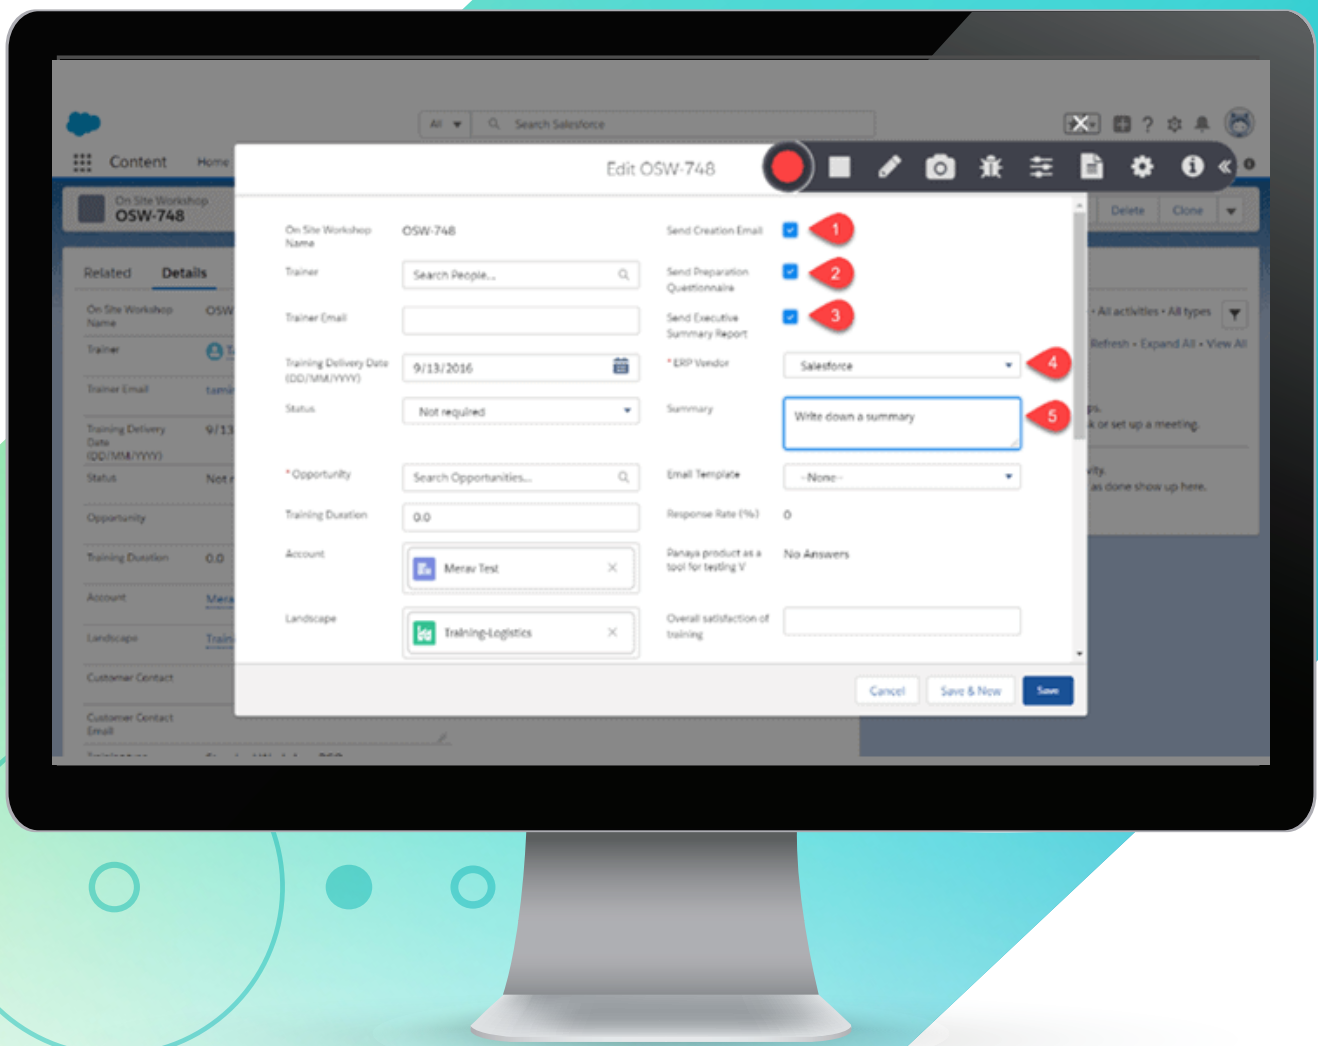

- View and manage your testing efforts and assets in a single management platform, designed for testing business processes.
- Gain real-time control over test progress, defects, and impact, and take immediate corrective actions.

# PLATFORM HIGHLIGHTS

## COMPLIANCE READY

- Automatically generate human-readable and audit-ready Test Evidence for compliance documentation and education.
- Support auditing for the complete requirement life cycle (requirement-test-defect).
- Enable e-signature within regulated cycles for test design and test execution approvals.

## MAXIMUM EFFICIENCY

- Understand in advance what areas of your org are at risk and focus your testing efforts only on the areas that will be impacted by a specific change or release.
- Increase testing accuracy and discover risks that you might have missed otherwise.
- Ensures that testers are not wasting time and resources on cumbersome, unnecessary tests.
