

# Manage Salesforce CPQ

with Complete Confidence

Ensure Safe and Smooth Roll-Out of CPQ Changes and Quickly Trace the Root Cause of Bugs or Failures

CPQ is a mission-critical solution for the organization's revenue engine. Panaya lets you plan, manage, and test your CPQ configurations and troubleshoot issues quickly and easily.

With Panaya, you can ensure that any change to the CPQ platform is rolled out smoothly, quickly, and safely.

No more long and tedious manual investigations No more stress and no more fearing the worst

# <image>

# WELCOME TO A FAST AND SAFE CPQ EXPERIENCE

The CPQ platform directly impacts the organization's sales, revenues, and service; as such, it must react quickly to the fast business pace and changing commercial demands. Introducing major updates or adding new functionalities must be done quickly and efficiently.

### WITH PANAYA CPQ IMPLEMENTATIONS DO NOT HAVE TO BE COMPLEX, STRESSFUL OR RISKY.

## **Platform Highlights**

### **FULL CONTROL**

- Take control of your Salesforce CPQ by recognizing all dependencies between your CPQ and Salesforce components with just a few clicks.
- Understand the potential impact & risk of every change to product rules, price rules, or any other component and avoid costly mistakes.

### **Platform Highlights**

### **COMPLETE TESTING TOOLSET**

- View and manage your testing assets and results in a single management platform built for business processes. Ensure that your CPQ calculations are correct, price rules are working, and quote lines are synced with the expected value.
- Test every update and release with business users to validate that new features fulfill business requirements and harmonize existing CPQ features without impacting them.

Salesforce CPQ helps the sales team save time, increase quote accuracy, and land bigger deals. Without the right management and post-deployment tools -CPQ is exceptionally vulnerable to bugs and errors introduced by any change to reference data.

### **PANAYA TAKES THE RISK OUT** of implementing CPQ releases and day-to-day changes

It ensures that any work on CPQ configuration data does not lead to unexpected consequences in Pricing, Quotations, and Configurations. If a problem occurs, you can use Panaya to trace it immediately, all the way to the source code.

With Panaya, you can leverage the full power of your CPQ solution and continue to build – and innovate – with complete confidence.
